

AJINKYA KALE

Lead Product Designer | Product Design · Customer Experience · UX Strategy

(+91) 900 - 4214 - 050 | ajinkyaranjit@gmail.com | Pune

SUMMARY

Lead Product Designer with 9+ years of experience designing customer and enterprise products across banking, healthcare, SaaS, education and consumer services. I lead product strategy and UX from problem framing through research, interaction design, prototyping, testing and delivery, while staying hands-on with complex workflows and cross-functional teams.

SELECTED IMPACT

Kotak Cloud Branch - Simplified complex branch-service workflows for 5,000+ staff, reducing authentication clicks and average handling time by 50%.

TrueMeds - Led a consumer pharmacy redesign across Home, product pages and Cart, reframing substitute adoption around trust, comparison and savings.

IMSOM - Led an end-to-end customer experience redesign spanning ticketing, event entry and follow-ups, contributing to a 20% increase in membership.

EXPERIENCE

Senior UX Lead — Ungrammery

May 2024 – Present | Embedded with Kotak Mahindra Bank on Cloud Branch and FYN

Kotak Cloud Branch

- Led product design for a new branch-service platform used by 5,000+ branch staff handling 60M+ annual transactions, consolidating workflows distributed across 10–15 legacy systems.
- Owned end-to-end UX across multiple core branch-banking services, including fund transfer and cash/cheque journeys, translating operational, business and technology requirements into scalable workflows.
- Reduced authentication clicks by 50% and average handling time by 50% through a consolidated SSO experience.
- Conducted recorded user research and moderated prototype testing to identify friction, validate workflows and iterate on interaction models.
- Designed operational dashboards, Companion (a scoped internal GenAI assistant) and Tools (guided communication with predefined templates and tone guardrails).
- Partnered with senior business, product, technology and design stakeholders from problem definition through production rollout while guiding a supporting designer.

Kotak FYN — Corporate Banking

- Designed payment experiences across IMPS, RTGS and NEFT within a configurable multi-role approval model spanning Maker, Checker, Authoriser and Sender workflows.
- Defined multi-persona approval journeys balancing customer efficiency, operational controls and compliance requirements.
- Used research, prototype walkthroughs and moderated testing to refine payment, status, exception and approval experiences.
- Partnered with product and engineering teams through active development to translate customer needs and complex banking requirements into scalable experiences.

TrueMeds

- Led a 3-designer team through a strategy-to-execution redesign of a consumer pharmacy experience.
- Combined product audit, stakeholder inputs, user testing, app-review analysis and competitive benchmarking to redesign key conversion moments across Home, PDP and Cart.
- Reframed substitute adoption around trust, comparison and savings, embedding education and reassurance at the points where customers were making a decision.

Wellytics

- Led product design for a 0→1 consumer health-tech MVP, partnering directly with the CEO and engineering leadership from concept through execution.
- Translated complex genetic reports, health tracking and habit-building information into accessible dashboards, data visualizations and a GenAI health companion.

EARLIER EXPERIENCE

Lead Designer — okoders | D'Accord TechHub LLP

Oct 2021 – Apr 2024 | Progressed from Senior UX/UI Designer to Lead Designer within one year

- Built and led a 7-designer team across multiple product engagements, owning design quality, staffing, hiring, appraisals and project planning while remaining hands-on in product strategy and delivery.
- Partnered with business and product stakeholders to frame customer problems, define UX requirements and establish delivery teams.

Selected engagements

- 21K School - Owned the multi-school administration experience within a 10+ designer global team, expanding the information architecture for a broader feature set.
- IMSOM - Led an end-to-end experience redesign spanning ticketing, concert entry and event follow-ups, contributing to a 20% increase in membership after launch.
- Eservz - Led a customer-facing website redesign that contributed to a 10% increase in inbound leads and 10% client-base growth following launch.

UI Designer → Product Designer — Nearby Technologies Pvt Ltd

Mar 2017 – Sep 2021

- Joined as an intern and became the company's first designer, growing with the organization from approximately 100 to 500+ employees.
- Designed 16 digital products and 20+ service modules across PayNearby, BuyNearby and LoanNearby, spanning payments, lending, insurance and merchant experiences.
- Designed Aadhaar ATM, UPI, Bharat QR, money transfer, insurance and credit-score experiences across consumer and merchant journeys.

LoanNearby

- Owned end-to-end product design for a multi-persona lending platform spanning CRM lead creation, CIBIL credit checks and multi-level approvals for PayNearby and Yes Bank.
- Reduced consumer-loan approval time from 15 days to same day for Aadhaar-KYC loans and to 6 days for larger loans by digitizing workflows and streamlining multi-signatory approvals.
